

DER GREIF

2022 - ISSUE 15 - ISSN 2191-4524 - 50 GUEST EDITORS

Issue 15, titled "The Collectivity Issue", marks a special approach to Der Greif's annual guest-editing. Instead of working with one guest editor, we have invited 50 artists to each edit a single spread within the publication.

What does collectivity mean in a world currently overshadowed by conflicts and crises? And what roles do collective making, collective trauma and collective responsibility play in our work? How can this shape our understanding of the photographic medium and its role in our collective consciousness? These questions inspired this issue's theme.

"The Collectivity Issue's" conceptual focus, therefore, is in experimenting with different visual forms of collaboration through photographs. Every double-page spread is a juxtaposition of the guest-editor's work with one taken from the open call launched for this issue. We intentionally did not intervene in each artist's individual selection. We invite you to read the resulting publication as one collaborative effort.
